Survey Study - Engagement in Decision-Making

Hello, my name is Julien Carbonnell https://www.linkedin.com/in/juliencarbonnell/.

The goal of this survey is to identify the attributes of representative stakeholders of decision-making in Smart-City. All the results of my research will be published (anonymously) on the same blog than my previous and future writings: https://medium.com/@julien.carbonnell

If you want to know more specifically about the theoretical background used for this survey, please take a look at "Theoretical Background: Stakeholder Engagement and Network Science in Urban Studies" => http://bit.ly/2NgmTN0

If you want to know more globally about my research, please take a look at "Stakeholder Engagement in Smart-City: Introduction to a comparative analysis of participatory governance in urban complexity" => http://bit.ly/2P60V4E

Thank you for your participation in my research.
